

Introducing the Army Satellite System in Peru

Drafting Peter Espinoza 01/12/10

San Borja, Dec. 01 (EP) .-The Constitutional President of the Republic inaugurated the Satellite System of the Army of Peru in the Army Headquarters.

The satellite system that the Army of Peru has acquired, is one of the most modern that currently exists in the world of telecommunications, because of its benefits and technical features, as are its applications: Data, Internet, video web conferencing, tele-education and telemedicine.

In that sense, this morning in the auditorium of Army Headquarters, was held the presentation ceremony of the Army Satellite System of Peru, which was attended by major authorities, including Dr. Alan Garcia Perez , President of the Republic Congress of the Republic, Ministers of State, Army General Otto Guibovich Arteaga, General Commander of the Army General Officers and subordinates, Technical and NCOs, among others.

Brigadier General Oscar Mogrovejo Paredes, director of Telematics of the Army, was commissioned to give the technical explanation of the system, starting his speech with a brief overview of the evolution of communications over time.

Of Likewise, the Army Commander General spoke about the importance of these new communication technologies that the Army has acquired, "the Army has come to real time." Also gave a summary of the major achievements that your command has done during the two years of management with a view to 2021: education reform, professional troops, satellite systems, weapon systems and equipment, terrestrial communication system, ammunition facilities and modernization of checkpoints at borders, and made a test of the system, by linking real-time with some battalions and units located in different parts of our country.

For its part, the President of the Republic, after having witnessed the benefits of the system, Army Command congratulated for the efficient use of resources that the state assigns to the process of institutional modernization. Then Satellite System inaugurated the Army.
